

ADAMH Board of Franklin County Funding Requests Guidance for Applicants

Revised 04.18.23

The Alcohol, Drug and Mental Health Board of Franklin County (ADAMH) welcomes applications for funding from qualified organizations to serve the behavioral health needs of Franklin County residents. ADAMH will make determinations about whether an organization is qualified based on the application materials submitted and the history of the people and the organization(s) involved in the project. Applicants must have current 501c3 status. The organization will be required to be certified by the Ohio Department of Mental Health and Addiction Services, if certification for proposed services is available.

This document provides guidance and instructions for how to submit an application and explains how ADAMH will evaluate proposals that are submitted.

When to Submit Applications

Organizations may apply at any time during the year. However, except for emergency applications,¹ submitted applications will only be evaluated at three times throughout the year. Here are the evaluation dates:

- April 3 Operational/Programmatic requests
- July 3 Operational/Programmatic requests
- October 2 Capital requests

Decisions about applications will typically be made within 60 days of these evaluation dates. Applicants will be notified of decisions through an email sent to the person identified as the point of contact in the application.

In the case of emergency applications, submissions should still be made through the same [application form](#) but indicate that the request constitutes an emergency and applicants are encouraged to send an email to funding@adamhfranklin.org informing ADAMH that an emergency request has been submitted. Emergency applications will be accepted only from organizations currently funded by the ADAMH Board.

Where and How to Submit Applications

All applications should be submitted through this online form: [ADAMH Funding Requests \(jotform.com\)](#)

Materials to Include as Part of Application

The following materials must be included in your application:

- Completed Form
- Narrative (to include answers to all questions found in Attachment C within this document)

¹ Emergency requests are those which BOTH (1) threaten the ability of the provider to provide services and/or represent a significant safety hazard to clients or staff; and (2) could not reasonably have been foreseen.

-
- Project Budget (you may use the format found in Attachment D from this document, or you may use your own format if you include all budgetary information included on Attachment D.)

Incomplete applications will not be considered. Applications are considered incomplete if all narrative questions are not addressed or the budget is incomplete.

When you submit an application, you will subsequently receive a confirmation email stating that your application has been received. Completed applications must be received by the evaluation date at 11:59 p.m. or they will be considered during the next funding round. Incomplete applications will not be considered.

Applications should be written to provide ADAMH reviewers with as complete a picture of your project or proposal. Proposals should not be conceptual in nature; rather they should be specific about costs and cost estimates, collaborations and partnerships, timelines and documented need. If ADAMH staff need additional information to help make funding recommendations, we may reach out to the submitting organization with questions.

Criteria for Evaluation

Attached to this document as “Attachment A” is a summary of how we will evaluate proposals. We also will rank highly those proposals which include financial support from the applicant and/or the applicant’s partner organizations. Consult Attachment A for a full list of criteria.

For some funding cycles, ADAMH may focus on one particular type of project or targeted program. When this happens, this emphasis will be clearly stated on the website and the relative emphases of the scoring criteria will be adjusted to reflect the special area of emphasis.

There is no set number of points which guarantee funding. Funding of projects is dependent on availability of funds; strength of the proposal; and consistency of the proposal with the stated criteria.

Requests Not Subject to this Process

For existing providers wishing to make changes to their existing allocation formula, if those proposed changes are budget neutral (i.e., the changes have no impact on the total amount that has been allocated to the agency), it is not necessary to submit an application through this process. Instead, agencies wishing to make a budget neutral change should do the following:

- Clearly define the proposed change and the reason for the change
- Clearly show the impact of the proposed change on specific allocations and on the amount and types of services you are providing;
- Submit this documentation at any time during the calendar year prior to October 15 using the online form: [ADAMH Funding Requests \(jotform.com\)](http://ADAMH.Funding.Requests.jotform.com).
