## **Franklin County Crisis Care Center**

## Creating a New Approach to Crisis Care

The Alcohol, Drug and Mental Health Board of Franklin County (ADAMH) is partnering with community stakeholders to address the continuum of crisis care in our community. The cornerstone of this continuum is the development of a new crisis center that will be the central and preferred destination in Franklin County for adult mental health and addiction crisis needs. The crisis center will provide a safe and secure location offering a full array of services with integrated peer support at all levels. Most importantly, the crisis center will offer a no-wrong-door approach to ensure any adult arriving at the crisis center receives services. This new resource is intended to benefit everyone from individuals in crisis and their families to the overcrowded hospitals and first responders currently stretched to their limits.

#### A welcoming and safe place where community members will be helped and supported during times of crisis.

- Centrally located in the West Edge area at 465 Harmon Avenue
- Open 24 hours/7days a week

**Crisis Care Center** 

Franklin Couniy Crisis Care Center

- Serving adults age 18+, regardless of immigration, residency or insurance status
- Includes public walk-in entrance and a separate entrance for first responders
- Opening in 2025

#### **Public Entrance:**

Natural light filters in the building entrance to create an atmosphere of hope and healing. Services also include a family center with resources about mental health and addiction and opportunities to connect with family support groups in the community.

**Care Units:** 

Care units are designed to provide a bright, home-like environment with comfortable seating and an open care desk to enhance engagement between staff and guests.

## **Community Needs**

of Franklin County's 1.3 million residents will experience mental illness in a given year. 10% will abuse or be dependent on drugs or alcohol.

Revised 12/05/22

mental health crisis 30.000 episodes are treated in Franklin County annually (mostly in hospital emergency departments).

3% Franklin County 5 22 is expected to grow by 8% Franklin County's population and see a 23% increase in the need for mental health and addiction services over the next 10 years.
